### SUMMARY

Java Backend Developer skilled in Core Java, Spring Boot, Hibernate, REST APIs, and MySQL. Experienced in building backend components, integrating APIs, and developing database-driven applications. Strong understanding of OOP, Data Structures, and clean coding principles. Familiar with Maven, Git, and version control practices. Looking for an opportunity to contribute to backend development and grow my technical skills.

### EDUCATION

**Master of Computer Applications (MCA)** 2025 – Present  
*Dattakala Group of Institutions, Swami Chincholi*

**Bachelor of Computer Applications (BCA)** 2022 – 2025  
*Swami Ramanand Teerth Marathwada University, Nanded.*

### SKILLS

#### Programming

Java, JavaScript

#### Database

MySQL

#### Concepts

OOP, Data Structures, Basic Networking, Linux Basics

#### Web Development

HTML, CSS, Bootstrap, React.js, Node.js (Express), Tailwind

#### Frameworks & Tools

Spring JDBC, Spring MVC, Spring Boot, Spring JPA, Hibernate, Maven, Git, Jira, Postman, Eclipse/STS

#### Soft Skills

Teamwork, Problem Solving, Communication

### INTERNSHIP / COURSES

**Full Stack Java Developer**, *Giri's Tech Hub*

**C/C++ Certification**, *Devansh Computer Classes, Parbhani.*

### PROJECTS

**Product Recommendation Web Application**, *Tech: React.js, Node.js (Express), MySQL.*

- Implemented a recommendation engine processing **500+ product records** using category- and item-to-item logic.
- Built an Admin Panel with CRUD for **50+ products and 10+ categories**.
- Designed customer features including cart, purchase flow, and order tracking used by **30+ test users**.

**Electricity Billing System**, *Tech: Java (Swing), JDBC, MySQL*

- Built a billing system handling **1,000+ customer records** with automated bill generation.
- Designed an admin portal to manage **100+ monthly bills** and customer data updates.
- Implemented customer features like online bill pay and report generation reducing manual work by **70%**.
